requested co-ordinate;
thought Seeleman
point not worded
strongly enough.

1. The plan embodied in reference to make use of this particular one of CAMLET's enterprises for cover purposes would seem to have considerable promise of success, as the sales jobs indicated for cover tend to minimize the problem of compartmentalization of information among various agents and the problem of parrying questions on the part of the regular employees.

2. CADORY has advised us of CAMLET's connection with Peter Seeleman; you undoubtedly know of this connection and have weighed the possibility of his becoming aware of the agents that may be assimilated into the firm for cover. Your comments on this situation would be appreciated.

3. We have checked with the desk handling [redacted] at Headquarters; there is strong objection to his use in connection with this or any other cover firm. Please see EQQW-7933, dated 1 June 1953, from [redacted].

4. The CART section is in favor of the use of this cover for surveillance teams.

5. There is no information available to us on CAMLET's mistress; since she will be witting of the agents using the suggested firm for cover purposes, please submit the necessary background information on her.
